

Mandarin (Chinese) Programs at Valley Elementary School

Children have the amazing ability to learn a foreign language at a young age, the younger a child starts, the easier they master the tones and nuances of Mandarin. Our program uses a well-implemented Academic and Activity-based curriculum. For non-Chinese heritage students, the program uses materials, "Step by Step Chinese Proficiency", which are professionally designed by All About Mandarin and had been practiced in many public and private schools in San Diego, to enhance students' proficiency of Mandarin (Chinese) as a foreign language. For Chinese heritage students, the program uses the materials that are currently being used in elementary schools in China(中国小学语文教材). This program not only provides structural academic learning, but also engages students' interests in learning Chinese. Join us for school year 2016-2017!
